

## **Milann – The Fertility Center launches new fertility centre in Chandigarh**

FOR IMMEDIATE RELEASE

Chandigarh, December 03, 2016: Milann recently announced the launch of its new centre in Chandigarh. The Chandigarh facility offers all services related to women's health and fertility care including fertility counselling, ultrasound monitoring, male and female fertility evaluation, endoscopy, andrology services, IUI, IVF, ICSI as well as donor and surrogacy programs.

“Delhi and Chandigarh are our main focus in the North due to the kind of mixed population we find there. Chandigarh market is nascent and it has an extremely good growth potential. Quality IVF treatment in these cities is the need of the hour. These cities have a high incidence of infertility and we realized that Milann with its legacy, expertise and state-of-the-art facilities would be able to provide the quality treatment which is required for these couples,” said Dr. Kamini Rao, Founder and Medical Director, Milann.

With a state-of-the-art IVF lab and Dr. Harpreet Kaur as the lead fertility specialist, this center promises to be one of the best fertility centers in Northern India. Spread across India with centres in Bangalore, Delhi, and now Chandigarh, Milann plans to expand its footprint across the country with its evidence-based approach and its 27 year old legacy in reproductive medicine.

### **About Milann**

Milann - The Fertility Center has been helping couples turn hope into happiness for over 25 years. Over 70,000 couples have been helped since Milann was founded in Bangalore by Dr. Kamini Rao, a pioneer in reproductive medicine in India in 1989. Milann has been ranked 1 by Times Health in Fertility Sciences specialty.

### **About HCG**
